INNOVATIONS 2021

Management
Eckhard Wefing
Manfred Wippermann
Marc Hogrebe

2020 is an unusual year: the lockdown in spring and the continuing restrictions imposed by corona are turning the world upside down.

We are now all the more pleased to present new product releases that aim to help you boost your sales and noticeably upgrade your showroom. All of our innovations have the potential to become bestsellers.

Particularly for your discerning customers, you can use our products to design on-trend and attractive kitchens which will leave them wanting for nothing. At the same time, we also offer you a wide range of clever solutions and details that will let you stand out from the crowd.

This year, independent auditors have given us confirmation that we manufacture our products on an environmentally friendly basis and use sustainable materials. Both are central elements of everything we do.

The following pages show you all of the key new releases and trends for the coming kitchen season.

Look forward to our innovations for 2021 – bestsellers included!

For the third time
in succession:
Germany's favourite
kitchen brand.

We produce in Germany –
also officially certified by the Verband
Deutsche Möbelschaffende e.V.,
the association of the German furniture
industry.

The golden M guarantees
proven quality, safety and
healthy living.

A healthy environment is also the basis
of our track record of success. It is for
this reason alone, that we work on a
climate-neutral basis.

BESTSELLER included

Symbiosis of storage space and design

Our new wall-unit height of 105 cm is unbeatable in terms of design and storage space!

Perfect throughout

Perfect your planning with the new uninterrupted doors for tall units and appliance cabinets!

On-trend decors

From oak graphite silver and volcanic oak to white concrete and the cement decors from LUCCA, we can offer you the latest on-trend decors!

The crowing glory for MatrixArt

The illuminated vertical recessed handle profile lets you create a further highlight in handleless kitchens!

MANHATTAN • SOFT LACK

White needs contrasts

The new MANHATTAN volcanic oak offers contrasts galore. The distinctive decor ideally complements calm SOFT LACK. The new wall unit height of 105 cm gives this kitchen a very individual look. The units are perfectly complemented by the open shelves and white lowboard.

MANHATTAN 489 - Volcanic oak • **SOFT LACK 76W** - White soft mat
Carcase ED9 - Volcanic oak • Worktop E39 - Volcanic oak • Handle trim 675 - Stainless steel look

Carcase height 105 cm

Delicately restrained – with much more space

After years of emphasising the horizontal, the trend is now returning to slim, vertical design elements.

So, what could be more obvious than giving our wall units 15 cm more height? You can now plan heights of up to 105 cm in the MATRIX 150 increment grid. Creating a wealth of new options in kitchen design.

The best part: it leaves customers wanting for nothing when it comes to planning their kitchen. In addition to wall units with hinged doors, there's a choice of display cabinets, shelf units and much more besides. You can even feature surrounds for cooker hoods. Find more details on available types by turning to pages 44/45.

Volcanic oak

Oak with a modern touch

Expressive timbers – some with blackened knots – are right on trend these days. And when the decor comes in a colour shade as warm as this one, the future bestseller is virtually waiting to happen. Because volcanic oak provides the homeliness of chalet oak, yet with a modern touch!

What's more, it is also the perfect contrast to smooth plain-coloured fronts. And the ideal partner for white – as depicted here, for example, with the SOFT LACK.

Elegant solution

The new surface-mounted G 675 handle trim skilfully combines the elegance of a recessed handle trim with the benefits of a classic handle.

Both inside and out – of course!

The new volcanic oak decor once again impressively demonstrates how the interior decor from Nolte Küchen helps to conjure a homely feel!

Exquisite on the outside, and on the inside too!

There's never enough storage space

A kitchen, of course, not only needs to look good, it should also offer storage space for dishes and provisions for the whole family on an everyday basis.

Not a problem – because the Nolte Küchen range gives you the right furniture for every need and expectation.

Clean air thanks to Ozonos Aircleaner

With its innovative technology, the Ozonos Aircleaner not only provides clean air in the kitchen but in all other rooms too. Besides eliminating bad odours, it also effectively kills germs, bacteria and even viruses.

**BEST
SELLER**
INCLUDED

STONE

Pared down to the essential

This composition shows you how to create an impressive kitchen with the consistent interplay of black and white. The new STONE in concrete white provides a wonderful contrast with the elements in black. Illuminated MatrixArt handle trims and shelf units with integrated lighting make inviting statements in this otherwise purist-looking kitchen..

STONE 267 - White concrete • Carcase PWD - Premium white
Worktop C30 - White concrete - Handleless MatrixArt 591 - Black

Opposites attract

The consistent interplay of black and white

Nolte Küchen gives you a wide range of options for accentuating white kitchens with contrasting highlights: illuminated shelf units, black handle trims that can be illuminated too, and all the many other options that are available.

From now on there's a further front with STONE white concrete to let you orchestrate vibrant contrasts with absolute perfection.

STONE white concrete – Bestsellers times two

Most kitchens are sold in white or a shade of white. So, what could be more obvious now than to offer concrete in white as well? The ideal combination of two on-trend themes!

**BEST
SELLER**

The crowing glory for handleless kitchens

MatrixArt: vertical handle trim profiles with lighting

The vertical MatrixArt handle trim profile can now also be illuminated from end to end with Emotion Light.

The LEDs remain hidden from view from whichever direction you see them. An innovation that creates new design options.

In this case, the lighting slightly subdues the contrast as a result of the black handle trim profile. This makes the handle trim look more slender while creating an understated source of light.

Needless to say, this lighting can be provided for all MatrixArt handle trim profile colours!

**BEST
SELLER**
INCLUDED

MANHATTAN

Individual-looking design in graphite silver

The new MANHATTAN in oak graphite silver is a welcome, uncomplicated combination partner. It provides many different options and impresses with its expressive graining – whether tone-in-tone (e.g. with sahara) or, as shown here, with elements in black.

MANHATTAN 486 - Oak graphite silver • End panels ED6 - Oak graphite silver
Carcase QGD - Quartz grey • Worktop E36 - Oak graphite silver • Handle trim 676 - Black anodised

**BEST
SELLER**

Oak graphite silver

Wood with character

The new oak graphite silver decor is extremely easy to combine, whether as a worktop, side panel or, as illustrated here, in the form of a kitchen front (MANHATTAN).

Oak graphite silver is a contemporary interpretation of the grey timber theme – with clear potential to become a bestseller!

A real eye-catcher in black

Display units with black aluminium frame

This display unit with black mat anodised aluminium frame and black tinted glass makes a real statement. The frame also comes with an integrated handle trim.

And this display unit with integrated lighting at the side cuts a particularly elegant figure too.

Competent edge

The new 676 handle trim in black gives you a further way of making contrasts on the front.

**BEST
SELLER**

**BEST
SELLER**
INCLUDED

FOCUS

Classics re-interpreted

The new FOCUS brings modern country style to the kitchen. The new framed design is unfussy, lightweight in looks and almost purist.

The appliance block interrupting the row of units at the back gives this kitchen a look that could, for all intents and purposes, be American in the way it feels. Illuminated display cabinets as base units open up the island to the living area.

FOCUS 83P - Platinum grey soft mat • Carcase PGD - Platinum grey
Worktop U23 - Black PRO • Handle 317 - Stainless steel look

**BEST
SELLER**

It's all in the frame

Delicate and right on trend

Its slim-line frames give FOCUS rather a delicate look, putting it on the cutting edge of today's trends. Besides platinum grey, the front is also available in white – providing ample scope for planning classic dream kitchens!

**BEST
SELLER**

But it doesn't stop at 105 cm

Top-mounted units create even more height

Our new wall unit height of 105 cm cuts a great figure in classic kitchens too! Not only providing more storage space, it creates a new, vertical look that can be enhanced yet further with matching add-on units. Simply perfect – particularly in a kitchen of this hilt!

**BEST
SELLER**
INCLUDED

LUCCA

Cement look for everyone

With the LUCCA, our successful PORTLAND product in real cement, now makes an entrance in budget-segment kitchens too. Reproduction of the genuine material now gives you even more scope for meeting your customers' wishes.

The new worktop in beech heart fits in perfectly and generates a contrasting element – for example, with the cement look in anthracite as shown here.

LUCCA 244 - Cement anthracite • Carcase QGD - Quartz grey
Worktop B25 - Beech heart • Handle combination 848 - Titanium look, brushed

Beech heart

**BEST
SELLER**

A timber completely different

Beech heart is the alternative for all those who want something refreshingly different. The worktop with distinctive knots harmonises with both dark and light colour shades.

Deceptively real reproduction

LUCCA – looking like PORTLAND

Of course: PORTLAND is unbeatable in terms of individuality. After all, every front is hand-crafted and one of a kind. Something you and your customers have doubtlessly come to appreciate – as a track record of success has demonstrated.

Yet the LUCCA now provides an attractive alternative. The decor is identical with the real McCoy in every sense, and is available in the same finishes as its genuine cement counterpart: cement sapphire grey, cement agate grey and cement anthracite.

**BEST
SELLER**

Handle with character

The new 848 handle combination is not only highly unusual in terms of shape: the titanium look also makes a particularly elegant and provides a welcome contrast, say, with the LUCCA in cement anthracite.

**BEST
SELLER**
INCLUDED

NOVA LACK

Breath of fresh air for long-standing bestsellers

This kitchen is the best example of how even tried and proven lines, such as the NOVA LACK, are given a new look with some of this year's innovations: uninterrupted tall and appliance unit doors give the kitchen a very neat and tidy look. An aspect reinforced yet further by the new MatrixArt handle trim profiles in premium white. The new oak barriqué worktop decor provides the appropriate surrounding element.

NOVA LACK 731 - High gloss white • Carcase PWG - Gloss premium white
Worktop E35 - Oak barriqué • Handleless MatrixArt 790 - Premium white

Perfection through and through

Tall units and appliance cabinets with uninterrupted doors

Anyone wishing to follow the trend towards a tidy, clean-looking kitchen with generous, large surfaces has no other option: tall units and appliance cabinets with uninterrupted doors.

Featured as standard, anti-warp fittings make sure these doors continue to close perfectly and don't warp even after prolonged use.

**BEST
SELLER**

Oak barriqué

Classic with a new twist

Classic oak is now available in an even more vibrant option. This makes oak barriqué harmonise in particular with light plain colours – as in this NOVA LACK high gloss white.

**BEST
SELLER**

Flap door closed, everything out of view

Egg boiler and kettle, espresso machine and mixer: many kitchen appliances have become lifestyle objects. When they start to get out of hand but are still needed every day, this is where the new top-mounted unit with lift-up door comes into its own.

Tone-in-tone as a highlight too

Illumination for the vertical MatrixArt handle trim profile

The illuminated vertical MatrixArt handle trim profile is always a highlight: whether contrasting with a black profile or, as in this case, understated and tone-in-tone with a premium white profile.

**BEST
SELLER**
INCLUDED

TAVOLA • PLUS

Homeliness in a new dimension

The dominating elements in this kitchen are genuine barolo oak and classy black. Uninterrupted tall units with open shelf units and display cabinets with black aluminium frames create a combination second to none. Entirely in black, the island is subtly relaxed by glass display units. There you have it: this is homeliness in a new dimension!

TAVOLA 572 - Oak barolo • **PLUS 60S** - Black soft mat • Carcase QGD - Quartz grey
Worktop U23 - Black PRO • Handle trim 561 - Black anodised

All a matter of combination

High-quality materials brought together for a look that's right on trend

Black not only creates a contrasting ambience in combination with white but also looks extremely classy with timber finishes while also providing exactly the right complement.

The black anodised aluminium on the display units meets genuine barolo oak on the tall unit, adding an element of interest and utter suspense.

Uninterrupted tall-unit doors

The uninterrupted tall-unit doors not only cut an impressive figure with MatrixArt. Especially combined with Push-to-Open fittings, the kitchen looks particularly neat and tidy.

Featuring display units with black aluminium frames, the kitchen almost takes on the appearance of a living room!

**BEST
SELLER**

Display units with black anodised aluminium frame

The display cabinets with black aluminium frame are always a highlight at base-unit level too. Here, in the island, they harmonise perfectly with the other base units in PLUS black soft mat. Integrated lighting conjures an ambience that extends an invitation to stay.

Future bestsellers

Whether MANHATTAN in volcanic oak or in oak graphite silver, LUCCA in cement decors or STONE or FOCUS, they all share one thing in common: everything it takes for a future bestseller!

By the way, volcanic oak as a carcass decor impressively demonstrates why Nolte kitchens are becoming spaces to feel at home and live in. Because featured both inside and out, the decor creates homely warmth throughout.

Handles and handle combinations

Design to put your finger on

The new handles complement the product line-up. These new additions now give you even more ways of creating exciting kitchens and of making statements targeted to impress.

Worktops

Highly expressive down to the smallest detail

Our new collection also cuts an impressive figure when it comes to worktops and side panels:

Volcanic oak, oak graphite silver and white concrete give you the key to designing kitchens from one and the same mould. Our beech heart and oak barriqué give you two distinctive timbers. And terra mare, a universally applicable, authentic stone decor, to accentuate a kitchen in a way that is guaranteed to enthrall.

Secure sales, cleverly planned

For the next kitchen season, Nolte Küchen will once again be providing all manner of support for your sales pitch:

- Decors that follow the latest trends while at the same time boosting sales
- Inspiration for planning individually tailored kitchens
- Noticeable enhancement of your exhibition
- Innovations which, for all their attractiveness, are above all one thing: easy to sell

But the best thing about the 2021 collection is the fact that all the new products have what it takes to become bestsellers.

On-trend decors

The new decors for 2021 impress with their up-to-date look and sure saleability.

From oak graphite silver and volcanic oak to white concrete from STONE or the cement decors from LUCCA – this is the spectrum of your future bestsellers.

The crowing glory for MatrixArt

You can now also illuminate the vertical MatrixArt recessed handle profile and create a further highlight in handleless kitchens.

105 cm wall units – Symbiosis of storage space and design

Our new wall unit height of 105 cm not only gives you new options in kitchen design, it is also unbeatable in terms of storage space.

Perfect throughout

Uninterrupted doors on tall units and appliance housings perfect the look of kitchens planned in a modern style.

The kitchen is the room of rooms.
We probably *live* more,
and more *intensively*,
here than anywhere else in the home.
It is the place where
we meet, where we encounter others.
As family or friends.
As a couple.
We *cook, eat* and *enjoy* ourselves
in the kitchen. And sometimes we have
all the time in the world as we do so.
We argue. And *make up again*.
We read, write, send emails, post messages.
And maybe philosophise a little.
And – quite secretly – the kitchen sets
the rhythm of our day.
Good morning. Then midday. Then evening.
And sometimes night ...
Which is *why we love* the kitchen.

Living in the kitchen. nolte
