

My kitchen

nolte[®]
KÜCHEN

Living
in the kitchen.

When it comes to planning your new kitchen, you will need to make about 1,000 decisions. We at Nolte Küchen want to simplify the process of arriving at a result that reflects you as a person. With our help, you can create a detailed profile of your preferences and needs that fits your personal lifestyle and home situation. To make this quick and easy, we have put together a number of key questions on the next few pages that take a close look at all aspects of life in and with your kitchen. As you answer them, you will also quickly realise all of the options we can give you. And creating your kitchen profile is fun too – it really is. **Look forward to a journey through the world of Nolte Küchen!**

Refer to the check-list on the
fold-out page:

The questions on the following pages are arranged by subject matter. These are designed to give you inspiration for your ideas. At the end of this document you will also find a list of potential answers to the questions asked, which the practical fold-out pages let you refer to whenever you wish while you are reading.

We regularly offer webinars on planning kitchens. Get details on our social media channels and subscribe to our newsletter at:
newsletter.nolte-kuechen.com

PLANNING WITH EMOTION
AND REASON

You can answer all of the questions in the order they are in or in any sequence you choose. Sometimes it may help to browse a little and do some reading first before you decide on an answer. Or take a look at the kitchen you already have, and get an idea of what you really want. You'll very soon be rewarded for all of the thought you put in: once your kitchen profile is ready, the recommendations tailored to you personally are just a step away from your nearest Nolte Küchen retailer.

Take a little time, grab a pen , be guided through the questions and simply tick the appropriate answers in the check-list provided on the fold-out page at the back.

MY SITUATION

Just the way that's tailored to you.
Are you not planning to move or make any structural alterations? A bespoke Nolte kitchen with corner solutions and units planned from wall to wall makes optimum use of the space you have. Are you wanting to remain flexible because you may be planning to move home or extend your kitchen? In this case, a Nolte kitchen in modular design may be more suitable for you.

PREFERABLY TAILOR-MADE –
OR RATHER MODULAR AND EXTENDIBLE?

The first home of your own? A newly built home for the family? Preparing for relaxed retirement? Every phase and situation in life comes with its particular needs. And offers different perspectives for the future. Nolte kitchens are geared towards this from the outset – which means they always simply remain part of your life.

- 1 What situation are you living in?
- 2 Do you think you are likely to move and take your kitchen with you in the next 5 years?
- 3 Do you want your kitchen to be a place to work or live in?

Use the check-list in the back cover to answer these questions.

See here our
image film
“Living in the
kitchen”

Your lifestyle matters.
Whether for a single person, a couple or a family, your Nolte kitchen is matched exactly to suit any particular situation in life which means it gives you plenty of scope to accommodate your personal work-life balance.

- 4 How many persons will be using your kitchen?
- 5 How often do you cook?
- 6 What is your style of cooking?

WHO DO I WANT TO SHARE MY KITCHEN WITH?

More and more, the kitchen is becoming the hub of the home. This is why some kitchens need a good measure of flexibility – and others plenty of space to play about with, quite literally. Think about who will be filling your kitchen with life today and in the future. And you can be sure that Nolte Küchen will make everyone feel at home in it.

My personality. My kitchen.
As diverse and individual as people are, so too are the wishes they have when it comes to furnishing their home. This is where their tastes range from trendy urban or timelessly classic look to the warm and inviting country-style kitchen. Making the kitchen just as individual as the rest of the home.

You will also find further examples of how to design a kitchen on our website.

DESIGN STYLES FOR YOUR KITCHEN

Talking about tastes and wishes is a wonderful way of sketching out a more precise picture of the ideas you have. But don't be swayed too much by other people's opinions. Because whatever you like is allowed.

- 7 Which type of environment and style do you feel at home in?
- 8 Which words best describe your taste in kitchens?

MATRIXART
by nolte KÜCHEN

GOOD PLANNING, ALL FROM GOOD ADVICE

MatrixArt is the handleless kitchen for admirers of good design and graphic style. This is where practical functionality meets modern design in an ideal symbiosis. But given the many different options, planning a kitchen like this is extremely challenging. Depending on what you like and goes best with the kitchen you are planning, for instance, you can choose horizontal or vertical lines for tall units and appliance housings. Get advice from a specialist kitchen retailer to make looks and functionality reflect your wishes in every detail – and, step by step, discover the many different design options for yourself.

Kitchen or a place to live in? Why not simply both: MatrixArt's handleless design gives the kitchen a graphic, sleek look.

Great effect: Nolte Küchen provides the option of adding LED lighting not only to the horizontal finger pulls but to vertical ones as well.

Minimalist and stylish with simple, dark surfaces or a brighter design with framed fronts that exude classic elegance: No matter what you choose, MatrixArt always gives your kitchen a clean and exceptionally modern look.

HANDLE OR NO HANDLE – THAT IS THE QUESTION

Classic kitchen designs can be accentuated with a wide choice of handles to create intentional effects. With its sleek lines, a handleless kitchen, by contrast, leaves a very modern impression and embraces an understated style. Choose between design with delicate details or purist fronts with a clean-cut look.

- 9 Handle or no handle?
- 10 Which style-defining elements do you see in your kitchen?

LIGHTING IS MOOD AND ATMOSPHERE

Light is much more than illumination. Because individually tailored to your kitchen, the lighting concept creates atmosphere, adds statements, plays a key part in defining the feel of the room and personal well-being. Modern LED technology provides pleasantly gentle and versatile lighting you can always match to your personal mood and time of day by remote control. This is an easy way of making more of light – and letting light make more of your kitchen.

Shelves break up the overall appearance and, with integrated lighting, create a very cozy atmosphere.

The display case is atmospherically staged with indirect lighting

ALL SORTS OF DIFFERENT SURFACE FINISHES – TO SUIT YOUR PERSONAL TASTE AND BUDGET

Genuine or reproduction – hardly distinguishable. Admittedly, both are hard to tell apart because, first and foremost, all of the materials used in a Nolte kitchen are marked by a feel of particular quality. Genuine materials, such as metal, lacquer or cement, are the perfect choice for kitchen fans with exacting expectations.

But high-quality reproductions are also available for many natural products. These absolutely authentic surfaces are in no way inferior to the original and surprise the senses with perfectly imitated texture and colouring. They also meet the wish for individuality and something special in a way that is second to none. The kitchen's outfit is also tailored to your wishes and budget, with our PremiumLINE drawers, for example. Now all you have to do is decide on the option for you.

- 11 Which materials / surface finishes do you prefer?
- 12 What do you want to spend on your new kitchen?

PORTLAND Cement anthracite

LUCCA Cement anthracite

METAL SURFACE

- FERRO** Our real metal front is even magnetic
- METAL** An authentic interpretation of the metal theme

CEMENT SURFACE

- PORTLAND** Our front with real cement surface
- LUCCA** Realistic cement/concrete look with a surprisingly genuine feel

LACQUERED SURFACE

- SOFT LACK**
NOVA LACK
FINE LACK Ranges of genuine lacquer in mat and gloss
- FEEL LUX** Lacquered laminate as an impressive alternative

Colours, surfaces, materials, and style – we will show you everything you should consider in the planning process.

FROM SINGLE GALLEY TO ISLAND – CHOOSE YOUR KITCHEN SHAPE

When planning, you have all the options: whether large or small space, with or without a kitchen island, set across a corner, units opposite one another, against one or more walls – everything is possible with Nolte Küchen. Whichever kitchen you choose, Nolte kitchens can be matched to virtually any wish and produced to meet your every personal preference and need.

How to determine the room dimensions exactly, you can see in our video.

WITH PRECISION PLANNING ...

A detailed floor plan is the basis for planning your kitchen. It should also show the exact positions of doors, windows, connections, power sockets, radiators etc. It is also important to document all structural specifics and requirements.

21 m²

How to determine the room dimensions exactly, you can see in our video.

... EFFICIENCY EVERY STEP OF THE WAY

From small rented flat to loft apartment, there's a place for Nolte kitchens everywhere. And all of them make optimum use of the space that's available. But often, the various dimensions and parameters seem to make things clear and, at first sight, leave room for little variation. Simply let your kitchen planner astonish you though, because there's no limit to good and creative planning.

- 13 How much space you have for your kitchen?
- 14 Which particular structural aspects need to be considered in the room?
- 15 Looking for an open or an enclosed kitchen?
- 16 Which kitchen shape do you prefer?

A PLUS FOR ADDED POSSIBILITIES

A PLUS FOR ADDED POSSIBILITIES

Flexibility and individuality are key to interior design, now more than ever. That is where our innovations come in to set new benchmarks for kitchen planning.

Under the name **MATRIX+** we now offer an expanded range of three carcass heights, all of which are perfectly adapted to your needs: 75 cm, 80 cm or 90 cm.

This new range is our response to the clear trend of cosy kitchens with optimised storage space and modern design.

All carcass heights are available in a handleless version.

Watch our video to learn more about **MATRIX+**

CLICK
here

MATRIX750

The classic option

The standard carcass height for a classic kitchen design combines optimised storage space with an ergonomic working height and is the perfect match for a wide variety of kitchen styles. With its timeless versatility, it suits both traditional and modern designs.

MATRIX800

The design-focused choice

Matrix 800 offers more storage space and a plethora of options for focusing on great design. The new carcass height makes it possible to integrate 40 cm high pull-outs and 20 cm high drawers to optimise use of the available space. At the same time it creates a modern style with ingenious details.

MATRIX900

Maximised volume

Matrix 900 is the perfect solution for anyone looking for maximised storage space and modern design. With a particularly low plinth and a carcass height of 90 cm, it creates a home-like ambiance and provides a convenient, ergonomic working height, without compromises.

THE NEW ERA OF KITCHEN STYLE

MATRIX800
by **nolte KÜCHEN**

ONE HEIGHT, MANY OPTIONS

What we associate with our new 80 cm carcass height Matrix800 is clean, modern design with optimised function. This innovative solution offers not just more storage space, but a plethora of options for planning, to adapt it perfectly to your specific needs. Nolte Küchen has now been awarded the prestigious Kitchen Innovation Award 2025 for this innovation, which is presented for innovative and functional kitchen technologies.

MATRIX800
by **nolte KÜCHEN**

MATRIXART800
by **nolte KÜCHEN**

Do you prefer a classic look – or a design-focused style?

Matrix800 gives you plenty of freedom to create your dream space. From a classic look with 15 cm high drawers and the new 25 cm and 40 cm high pull-outs, to a design-focused symmetrical style with variations such as 40/40 cm, 20/20/40 cm or 20/20/20/20 cm – Matrix800 offers the perfect choice for any taste.

THE STORAGE WIZARD
IN YOUR NOLTE KITCHEN

In a Nolte kitchen, every inch provides space for your life. Because there’s never enough storage space. But there are intelligent solutions that make optimum use of the space that’s available in your kitchen. Simply think about all the things to need to store – and how you want to get to them. And your kitchen planer will team up with us and provide the perfect storage space concept.

- 17 How do you normally do your shopping?
- 18 Is any additional storage space available?
- 19 Which kitchen appliances do you need to keep on the worktop or store in a cupboard?

Matrix 800:
20 % more
storage space

Coming in a carcase height of 90 cm, Matrix 900 provides no less than 20 % more storage space over the 75 cm height shown above.

Matrix 800: More options for organising the interior

Double the space for cutlery
The 20 cm front offers space for two flat interior drawers. This doubles the available storage space.

Space for your everyday needs
The 40 cm high pull-out is ideal for storing crates of drinks (1.0/1.5 litres). It is also the perfect place to, for instance, stack interior organiser boxes.

The matching lid for any pot
In addition, a high interior drawer can be retrofitted in the 40 cm high pull-out. This lets you store lids right above the pots to keep your kitchen neat and tidy, with everything you need within easy reach.

LOGICALLY PLANNED WITH
REFINED DETAILS

To begin with, think about what you want to get done in your kitchen and where to keep this, that and the other. This way, you can structure the various zones and coordinate everything. To start planning the kitchen straight away, use our web planner at www.nolte-kuechen.com

Quickly and easily to hand: the larder unit with height-adjustable food storage baskets optimise organisation for kitchen utensils in various sizes.

The pull-out larder unit provides a huge amount of storage space. And everything is instantly to hand – from both sides.

MATCHED TO YOUR STATURE

Anyone spending a lot of time in the kitchen needs pleasant conditions to work in. This is where it is always a matter of striking the perfect balance between design and practicality. Because we never look at one without considering the other when we plan your Nolte kitchen, you can always be sure: the measure of all things is you. A good feeling that's noticed in every job you do.

- 20 How tall are the persons who regularly use the kitchen?
- 21 Which appliances need to be integrated in a way that makes them ergonomic to use?

The raised oven and the raised dishwasher both simplify your kitchen chores, making it unnecessary to bend down to operate appliances.

Ergonomic perfection
Nolte kitchens let you match working height to how tall you are. While standing, the most comfortable working height is when the distance between worktop and bent elbow is approx. 15 cm. Variable plinth heights, different carcass heights and three worktop thicknesses make it possible to provide an ergonomic working height for persons of any stature.

PLINTH + CARCASE + WORKTOP = ERGONOMIC WORKING HEIGHT

Example for a cabinet height of 80 cm:

My kitchen components

PREMIUMLINE DRAWER

PREMIUMLINE – THE DRAWER SYSTEM IN A CLASS OF ITS OWN

PremiumLINE

PremiumLINE Box

PremiumLINE Glass

Perfect in function and design on the inside too.

The Nolte Küchen PremiumLINE drawer and pull-out system impresses right across the board: the designer-style drawer side profile in stainless steel look harmonises perfectly with the drawer base in quartz grey. With PremiumLINE Box, the high-quality basic configuration gives you even more storage space thanks to the closed side profiles. The range-topping PremiumLINE Glass option combines more space with the best possible view of everything inside through the glass side panel – even in a width of up to 120 cm.

More light – better view!

Interior lighting can be used to show off drawers and pull-outs with stunning effect – and provide an even better view of contents.

MATRIX800

by nolte KÜCHEN

Matrix 800 is the perfect combination of function, ergonomics and aesthetics, setting new standards for the kitchen design of the future. Let the clever room division and the timeless design inspire you. This carcass design meets all the demands of a modern lifestyle.

The following pages present an overview of unit types (base units, larder and appliance housing units, glass cabinets). We have selected a carcass height of 80 cm as an example. It goes without saying that 75 and 90 cm high carcasses are also available. Please do not hesitate to ask your local kitchen planner for more information.

MY FRONTS

THE CHOICE IS YOURS

Do you like a homely, elegant look or prefer it classic? It doesn't matter – because at Nolte Küchen, you have all the options: here, individual taste and personal style are not a question of budget. From melamine resin to genuine lacquer, from plain colours to stone and wood decors, the sky's the limit.

ALL OPTIONS AT A GLANCE

LACQUERED LAMINATE

An extremely calm looking surface and optimum durability are characteristic of lacquered laminate. The fronts are made from an engineered wood panel with a lining lacquered in the course of the production process. High gloss or soft mat, just as you choose.

LAMINATE

A high-quality, soft mat and extremely hard-wearing laminate surface with anti-fingerprint properties.

GENUINE LACQUER

High-gloss genuine lacquer fronts are lacquered in several coats and then polished to produce a sealed and particularly smooth surface. Besides high-gloss fronts, fronts are also available with a soft mat genuine lacquer finish. The latter captivates with its interesting feel.

REAL WOOD

As an authentic and genuine natural product, wood conveys warmth and a sense of security. The natural variations in colour and texture visible in the grain are an inherent part of wood. Used in the kitchen, the natural material lends itself to quality craftsmanship while conveying its charm and character.

REAL METAL

The real metal fronts give your kitchen an authenticity that oozes with character: several layers of a mixture of metal particles, resins and colour are applied to a base panel made of engineered wood and sealed with clear lacquer. The result additionally impresses with a magnetic effect.

REAL CEMENT

The unusual feel of this surface is produced by creating irregular depressions in a panel made of engineered wood. It is then hand-coated with cement, silica and coloured lacquer and afterwards additionally sealed with clear varnish. Robust beauty for combinations so very rich in contrast.

REAL STONE

Stone is a pure, genuine natural material that radiates stability and durability. Natural variations in colour and texture are unmistakable features. The surface made from a quartz-dolomite mixture creates a slightly rough texture that emphasizes the exceptional character of this material.

The genuine wood front TAVOLA in oak pinot creates a balanced image and exudes a warm, natural ambiance.

PERFECTLY BALANCED IN ANY COMBINATION

Colour is inspiration, stimulation, creativity. Colour is life. And provides virtually endless ways of individualising a kitchen. Warm colours are stimulating, while cool colours have a calming effect. Tone in tone creates harmony, leaving clear contrasts to create exciting highlights. In short: nothing influences the atmosphere of a room more than colour. With this in mind, get to know our colour concept – and get to know precisely your kitchen.

COLOUR ... FOR LIVING IN THE KITCHEN

Genuine lacquer for a modern and classy ambience in your kitchen.

Comfortably *easy* to clean.

THE SMART SOLUTION FOR STAIN-FREE KITCHEN FRONTS

Daily use leaves traces in any kitchen. Nolte's anti-fingerprint surfaces offer a convenient solution: These easy-care surfaces minimise fingerprints and feature an impressive velvety-matt look. In any kitchen, cabinets and drawers are opened and closed multiple times a day. So the kitchen fronts are constantly in contact with hands. You've only just cleaned all the surfaces and already they're covered in prints – particularly if your household has children in it.

Kitchen fronts with anti-fingerprint surfaces are an effective solution to the problem of fingerprints and other traces of use. A special lacquer is used to seal the surface, making it more durable and particularly easy to clean. And on top of that, the velvety-matt feel gives the kitchen timeless elegance. It's the ideal choice for anyone who wants to combine durable quality with beauty. Our three product ranges VELLUTO, PLUS and FLAIR all come with this innovative technology.

anti-fingerprint
ranges

A SPLASHBACK MAKES AN ENTRANCE

Our bespoke and elegant alternative to classic splashback panelling: sometimes innovative and fresh, sometimes calm and perfectly balanced – choose from a wide selection of mood-conjuring motifs that will create a special feel-good ambience in any kitchen. All of the motifs shown are optionally available in the form of printed wood-based panel or glass splashback. On request, the latter are also available with illumination.

MY CARCASE DECORS

What impresses you at first sight will continue to excite you in everyday use: harmony and perfection carried through on the inside.

PERFECT BOTH INSIDE AND OUT

Whichever of our kitchens you choose: it's only perfect when it also meets the highest quality standards on the inside too. This is why the carcasses of every kitchen we make come with the same finish on the inside as they do on the outside to ensure an overall look of consistency – not only for wood hues but for all plain colours too.

SEALED IS WELL SEALED

With Nolte Küchen, you can take this quite literally: doors with edge seals close so perfectly that hardly any dust gets inside the cabinet.

NATURAL CHARM –
WORKTOPS IN
WOOD EFFECT

Anyone preferring a warm and homely environment in the kitchen sooner or later realises there is no way past a worktop in wood effect. There are numerous options in thicknesses of 25 and 40 mm. Choose from a wide range of decors to suit your taste, and all of course in a high-quality finish to meet your exacting expectations on design.

PLAIN AND STONE DECORS

5

SLIM-LINE, DELICATE
AND TOUGH

These worktops come with the right attributes for the kitchen: elegance, a light and airy feel and, with some of them, extreme durability, guaranteed for example by MDF substrate panels with laminate surfaces which are particularly tough and hard-wearing.

FLUSH-FITTING SINKS,
HOBS AND POWER SOCKETS

Flush-fit sinks and hobs combine modern looks with easy maintenance – long-lasting and easy to clean. At last an end to irritating edges – nothing gets caught here, and your worktop is always clean and hygienic.

 = Worktops
12 mm thick

Whether sinks in stainless steel or granite, whether 40 or 25 mm worktop thickness: every decor is at your disposal! You can even choose any PRO decor for 12 mm worktops. Plus we have perfected the installation – so you can be sure that even after many years' use, there will be no impairment.

MY LIVING SPACE

NOLTE LIVING – PERFECTLY COORDINATED LIVING AREA

At Nolte Küchen, the materials you choose for your kitchen can also be used to style your living area. In terms of visual appeal, our modern furniture lets you perfect the transition from kitchen to other spaces in the home, such as living or dining area.

MY UTILITY ROOM

EVERYTHING STORED – NEXT TO THE KITCHEN

Whether used as a storage space for household items, a room for the washing machine and more, or even as a dressing room, a utility room can be versatile and flexible. And if it's located right next to the kitchen, even better! Customize this space according to your personal preferences.

Perfectly planned for everyday things:

- Washing machine & tumble dryer
- Laundry
- Bottles and crates
- Household appliances
- Clothing
- Waste separation
- Provisions & storage

living furniture and
utility room planning.

LOTS OF SPACE IN A SMALL AREA

No matter how small the home is, the interior should be cosy and individually designed to one’s taste. Sloping ceilings and nooks require creative design ideas to make the most of the limited space. With Nolte Küchen’s smart planning ideas, design, budget, and functionality can be efficiently combined. Reproductions of modern materials such as concrete, stone and laquer offer visually appealing design options on a tight budget.

with charm and ideal for single persons, couples and small families

54 m²

MAKING MORE OF IT ALL

Small micro-apartments offer excellent living spaces. Especially young people, who are just starting their careers or are already well established in their jobs, find a home here. With thoughtful planning, even small areas can be used efficiently. Particularly in the kitchen, clarity and additional storage space can be created through, for example, suitable wall units, railing systems, or plinth drawers. No matter how small the living space is, Nolte Kitchens has the right solution for every challenge!

Built-in extractor hood
A built-in extractor hood saves space, and the unit it's fitted in can also be used for storing spices and other small items.

Railing system
Railing systems not only hold kitchen utensils in easy reach at all times, they also keep the kitchen looking tidy.

Plinth drawer
For even more storage space, simply use the plinth. A plinth drawer provides space, say, for a dustpan, cleaning cloths, sponges and much more besides.

Look of harmony
Uninterrupted fronts give the kitchen a consistent overall impression. Depending on taste and budget, there's a variety of decors to choose from.

Right wall-unit height
It makes sense to match the height of the wall unit to the height of the apartment. Room height permitting, wall units can be planned in a height of up to 135 cm. That provides space to keep all kitchen utensils.

Lighting
Spotlights recessed in the wall unit base panel ensure a well-lit work surface.

Interior pull-outs
Closed from the outside, the front conceals neat and tidy organisation, keeping everything in place for instant access in pull-outs and drawers.

Pull-out beneath the ounter
Use the space under the counter as well: a pull-out keeps contents neatly organised and easy to find. Bottles and Tetra Pak cartons for example.

DISCOVER OUR HOME STORIES

Our home stories show you two different home-living concepts that have been implemented with furniture from Nolte Küchen. Both projects demonstrate individuality and inspiration in their very own way.

Discover a colourful utility room, a modern country-style kitchen and an exceptional house on Lake Königssee.

A timeless haven

Three years ago, we accompanied Julia and her partner as they moved into their hillside home and furnished it with a Nolte kitchen. Their vision was to make the kitchen the heart of their home. Now we returned to ask if the kitchen has stood the test of time? In our interview, Julia tells us what life in her hillside home has had to offer and if she remains impressed by her Nolte kitchen.

TO THE INTERVIEW

Of architecture and interior design

Rosemarie, who works as an architect out of Hanover, loves to express her creativity in her work. On her Instagram channel @live.like.archi she regularly inspires followers with tips related to architecture, construction, styling and interior design. We had the opportunity to take a tour through her home and find out how the architect herself lives.

TO THE INTERVIEW

” At Nolte Küchen we combine our passion for high-quality kitchens with a profound sense of responsibility for our environment and future generations. “

Inherent throughout our entire company and its entire value chain, the guiding principle of sustainability is reflected in everything we do and the way we think. It is firmly embedded in our broad-ranging corporate strategy with a view to achieving lasting improvements for mankind and nature.

OUR COMMITMENT TO...

THE COMPANY

As a matter of good corporate governance and the associated values, we have established resilient structures, processes and partnerships over a period of many years. High quality; modern aesthetics, sustainability and an attractive price-performance ratio are the factors that are always taken into account in our product range. So, for instance, over 99% of the woods we use complies with the principles of sustainable wood criteria (FSC®- und PEFC-certification).

THE ENVIRONMENT

As a company, we have made it our aim to maintain a responsible and sustainable use of natural resources. Thanks to our effective sustainability activities, we are able to manufacture our products in a net climate-neutral manner at our two operating bases in Löhne and Melle. The main fuel sources at Nolte Küchen are certified green electricity and our boilers, which operate with offcut wood from production.

THE HUMAN ELEMENT

Our members of staff are particularly close to our heart. Their dedication, knowledge, experience and curiosity are what define us as Nolte Küchen. For this reason, we are pleased to assist our staff in furthering their development – both on the work side through basic and further training as well as on a private level by respecting and enhancing their work-life balance.

THE SOCIETY

Ever since Nolte Küchen was first founded, we have cultivated close ties with the region, and we actively foster its well-being and growth. Social commitment is a tradition for us, and we have placed great emphasis on it from the very first day. We help people and regions in emergency situations, such as educational institutions, associations and foundations that are involved in child protection. Our credo: support is given where support is needed.

The grounds of Nolte Küchen have been home to local bees since the summer of 2023, and they have already brought in their first nectar into their hive. They not only provide delicious honey but are also indispensable pollinators, making a significant contribution to the preservation of many plant species.

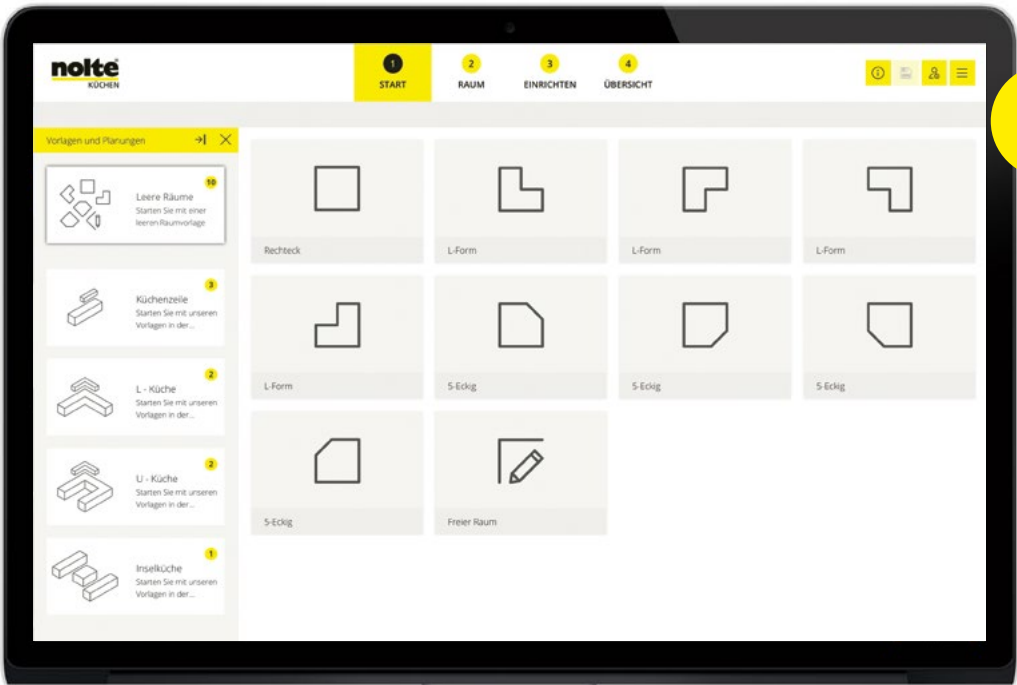

Our products are available with FSC® or PEFC certification on request. Please contact us for further information.

FROM THE VERY
BEGINNING, ALL
EXACTLY TO PLAN

Before you start planning in detail, you should define the fundamental structural set-up, such as room size and layout. Important also are the exact positions of windows, doors, power sockets and connections. Once you have carefully measured everything up, make a scale drawing of your kitchen's floor plan on the adjacent planning sheet – as the basis for successfully planning a Nolte kitchen tailored exactly to meet your expectations and needs.

Start measuring up!
This page with **squared paper** gives you basis for drawing you floor plan and for entering the details.

Your Nolte Küchen planner on the web:
Online, you will find lots more information on how to plan your kitchen. Click by click, you will be guided through every step of the planning process – leaving you with the best possible result!

☐ 1-2 persons

☐ 3-4 persons

☐ 5 or more persons

5

How often do you cook?

☐ every day

☐ several times a week

☐ only at weekends

☐ rarely

6

What is your style of cooking? Usually:

☐ quick, easy meals

☐ dishes involving a lot of work

☐ both

7

Which type of environment and style do you feel at home in?

☐ right on trend

☐ timeless

☐ country style

- 8

Which words best describe your taste in kitchens?
This information will help the planner to give you the style of kitchen you want:

☐ homely

☐ practical

☐ minimalist

☐ structured

☐ individually styled

☐ practical

☐ tidy

☐ inviting

☐ large

☐ colourful

☐ simple

☐ classy

☐ rustic

Other terms:
- 9

Handle or no handle?

☐ Handle

☐ handleless

10

Which style-defining elements do you see in your kitchen?

☐ kitchen with handles

☐ handleless

☐ planning a sleek look

☐ planning a relaxed look

☐ open shelf units

☐ cooking island

☐ display units

☐ counter solution

11

Which materials / surface finishes do you prefer?
Wooden surface:

☐ real wood

☐ wood reproduction

Cement surface:

☐ real cement

☐ cement reproduction

Metal surface:

☐ real metal

☐ metal reproduction

Lacquered surface:
Genuine lacquer

☐ mat

☐ gloss

Lacquered laminate

☐ mat

☐ gloss

Laminate with anti-fingerprint finish (mat) ☐

12

What do you want to spend on your new kitchen?
My kitchen budget:

13

How much space you have for your kitchen?

☐ up to 8 sq.m.

☐ 8–15 sq.m

☐ 16–25 sq.m

☐ over 25 sq.m.

14

Which particular structural aspects need to be considered in the room? Please make a note of this on the left-hand side of your sketch:

☐ room dimensions

☐ angles (if not 90°)

☐ door sizes

☐ left or right-hung

Where do these door lead to?

☐ window sizes

☐ sill height

☐ position of radiators

☐ water connection

☐ drain

☐ cooker connection

☐ power sockets for lighting

☐ midway section power sockets

☐ other power sockets (refrigerator / extractor hood)

- 15

Are you looking for an open or an enclosed kitchen?

☐ separate room

☐ open-plan eat-in kitchen

16

Which kitchen shape do you prefer?

☐ single galley

☐ double galley

☐ L-shaped kitchen

☐ U-shaped kitchen

☐ with kitchen island

☐ with counter solution

☐ with dining for _____ persons

☐ no particulars

17

How do you normally do your shopping?

☐ in most cases fresh

☐ from provisions

☐ whenever necessary

The kitchen is the room of rooms.
We probably *live* more,
and more *intensively*,
here than anywhere else in the home.
It is the place where
we meet, where we encounter others.
As family or friends.
As a couple.
We *cook*, *eat* and *enjoy* ourselves
in the kitchen. And sometimes we have
all the time in the world as we do so.
We argue. And *make up again*.
We read, write, send emails, post messages.
And maybe philosophise a little.
And – quite secretly – the kitchen sets
the rhythm of our day.
Good morning. Then midday. Then evening.
And sometimes night ...
Which is *why we love* the kitchen.

Living in the kitchen. nolte
